Depuis des siècles, le conte est un outil de choix pour transmettre la langue, la culture et les valeurs d'un peuple. Les contes traditionnels instruisent tout en divertissant; ils sont riches en vocabulaire, en personnages, en idées et en valeurs. Dans ce cours, nous étudierons les caractéristiques génériques du conte à partir d'un corpus francophone local et international. Nous apprendrons également comment raconter un conte sans l'apprendre par cœur, et comment l'interpréter de façon expressive.

**Acquis d'apprentissage. À la fin du cours, l'étudiant.e sera capable de**

- reconnaître les éléments thématiques et structuraux des contes
- employer des outils méthodologiques et théoriques pour analyser les contes
- raconter un conte sans l'apprendre par cœur
- adopter l'élocution, l'intonation, la prononciation et la gestuelle pour raconter de façon naturelle et dynamique
- trouver les ressources disponibles aux conteurs et conteuses et leurs auditoires.

## **Copies of Out-of-class Assignments**

Keep paper and/or other reliable back-up copies of all out-of-class assignments: you may be asked to resubmit work at any time.

## **Accessibility**

The University promotes the full participation of students who experience disabilities in their academic programs. To that end, the provision of academic accommodation is a shared responsibility between the University and the student.

When accommodations are needed, the student is required to first register with Student Accessibility Services (SAS). Documentation to substantiate the existence of a disability is required; however, interim accommodations may be possible while that process is underway.

Accommodations are available for both permanent and temporary disabilities. It should be noted that common illnesses such as a cold or the flu do not constitute a disability.

Use of the SAS Exam Centre requires students to make a booking at least 14 days in advance, and no later than November 1 (fall), March 1 (winter) or July 1 (summer). Similarly, new or changed accommodations for online quizzes, tests and exams must be approved at least a week ahead of time.

For Guelph students, information can be found on the SAS website

For Ridgetown students, information can be found on the Ridgetown SAS website

## **Academic Integrity**

The University of Guelph is committed to upholding the highest standards of academic integrity, and it

is the responsibility of all members of the University community-faculty, staff, and students-to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff, and students have the responsibility of supporting an environment that encourages academic integrity. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.
