- (a) All applicants for work assignments, including applicants with their job security period (JSP), must apply directly via the job posting website providing an application and curriculum vitae for each of the work assignments for which they seek employment. The home Department (or in one of their Departments for some interdisciplinary programs) of all incoming graduate students with a job security period must inform the students of their need to apply. It is the responsibility of the employee to demonstrate evidence of qualifications, current level of consideration and accrued seniority points, at the time of application. The online process shall provide applicants with a clear and simple format by which to be able to determine their relevant 'level of consideration' and 'seniority points').

11.04 Selection Process

- (c) In all cases of job competition, the University's selection criteria shall only include: qualifications (academic and professional), competence, capability, skill and ability, ~~and~~ prior relevant experience, and availability for the time and location of the course. The commitment to guaranteed work assignment income as indicated in this correspondence will define the Job Security Period for Unit 1 employment purposes. The guaranteed work assignment and non-employment income specified in the Offer of Admission letter can only be adjusted in accordance with (h) and any provisions specified in the Offer of Admission letter that permit external scholarship income to be substituted for non-employment income.
- (f) The Union and the University recognize that it is the responsibility of students to apply for positions for the semester(s) or year(s) stated on their Offer of Admission letter per Article 11.03(a) in order to be considered for a position(s). The University will inform incoming and current graduate students each semester that they must apply for work assignments electronically on the job posting website by the deadline (to be determined by each Department) in order to be offered position(s) stated in their Offer of Admission. The notice will be separate from the Offer of Admission and shall be communicated via email. The communication will also inform students that they will forego that part of their guaranteed work assignment income if they do not apply or if they decline an offer.
- (g) Should a student apply for a position guaranteed under a Job Security Period (JSP) and not receive an offer for a position in the timeline specified in the Offer of Admission Letter, the University will provide the student with funding equivalent to the guaranteed work assignment income that would have been paid for that position.
- (h) For in-program students whose Offer of Admission contains funding in the form of guaranteed work assignment income, with the agreement of the student the University may revise the allocation of funding sources annually to substitute guaranteed work assignment income with other non-employment forms of funding or to shift the source and timing of income for guaranteed work assignments. This process must be completed with the explicit consultation and consent of the affected student. There shall be no decrease in annual funding allocated to students as a result of adjustments made under this provision.

- (j) Should there be a negotiated increase in the full term GTA work assignment wage rate and should an employee be receiving a student stipend (i.e., the financial package arranged for the student), that any negotiated increase in the GTA rate will result in an equal amount increase in the student stipend. However, the University and the Union agree that the Union does not have any jurisdiction over the determination of a student stipend. Where a student is guaranteed a minimum stipend, the stipend shall not include more than one TA work assignment per semester as defined by the Job Security Period.

All evaluations shall be in writing and based solely on the performance of those duties specified in the 'Assignment of Work Agreement' (Appendix C) as completed and signed by the employee and the supervisor. Evaluations will state whether the employee has performed satisfactorily in the duties associated with their work assignment. Where an employee is given an overall rating of "Improvement Required" or "Unsatisfactory", constructive feedback will be provided for correcting the concerns. A timeline for correcting the concerns will also be provided. The timeline for correcting concerns may extend up to half-way through the employee's next work assignment. Should the University require training necessary for the development of the Member, and should that training be in excess of the work hours already assigned, that training shall be at the expense of the University and the Member will be compensated at the hourly rate as per Schedule B. Should the timeline extend into a subsequent semester, the subsequent course supervisor will be made aware of how they should be supporting the development of the employee. Appendix XX Modes of Course Delivery

Modes of course delivery are: in-person, blended, hyflex, online synchronous, and e-learning as below. For greater clarification these modes of delivery are described as:

In-Person

Instruction takes place in real time in a classroom or other physical location. Instructors and students are expected to attend in person. Assessment may take place in person or online (synchronously or asynchronously).

Blended

Instruction takes place through a combination of in-person and online teaching. The majority of the course will be taught by the instructor. Assessments may take place in person or online (synchronously or asynchronously).

Hyflex

Instruction takes place using both in-person and online components. Instructors teach in person, online synchronously or through recordings and completing activities asynchronously. All students in the course attend in person and/or online; maximum registration will not exceed classroom capacity. Online assessment must be available to students, but in-person assessments can be offered simultaneously.

Online Synchronous

Instruction takes place through regularly scheduled, synchronous online teaching of students. Students are not required to attend in person for learning or assessment activities. Assessments may take place during synchronous meetings or asynchronously.

E-Learning (Online Asynchronous)

Instruction takes place fully online through the DE learning platform. Course content is delivered asynchronously online by the instructor with optional online synchronous components (e.g., orientation and welcome, office hours, peer learning communities, tutorials). Assessments are completed asynchronously. Students are not required to attend in person for learning or assessment activities.

Meetings include lectures, labs, and tutorials. For scheduling clarity, courses taught using

- (i) In-Person, Hyflex and Online Synchronous modes of course delivery have all meetings scheduled;
- (ii) Blended teaching may have some lecture and lab meetings scheduled and others not;
- (iii) E-Learning teaching has no meetings scheduled.
