

## Laboratory Safety

The health, safety and well-being of both the University community and the environment are of utmost importance to the University. Being a research intensive institution with diverse science-based programs, laboratory environments are plentiful throughout the main and satellite campuses. As such laboratory personnel including employees, students and visitors are exposed to potential hazards unique to laboratory settings and hazardous materials each and every day.

The University's Senior Health and Safety Consultant (Laboratory), Alicja Zachertowska may be contacted by email at [labsafe@uoguelph.ca](mailto:labsafe@uoguelph.ca) [1] or by phone 519 824 4120 ext. 54270.
