1. GIBCO/BRL Award – Scott Mazurkewich (\$500)

Undergraduate student who has produced and presented the best all round research project in [MCB*4500](#) and/or [MCB*4510](#) Research Project I and/or II in Microbiology.

2. Society of Chemical Industries Prize in Biochem - Michael Leeson (engraved plaque/1-year subscription to SCI's magazine)

Students who have convocated from the Biochemistry Honours program or the Biochemistry Co-op program during the fall or winter semesters or will be convocating in the summer of the current academic year with the highest cumulative average.

3. Roche Grad Award - Kathleen Schroeter and Nicholas Khuu (\$500; tie this year, 2 awards of \$250)

Awarded to the graduate student registered in the Department of Molecular and Cellular Biology who has presented the best graduate seminar during the academic year.
