The Grawemeyer Award in Psychology 2025 The Grawemeyer Award in Psychology is given for original and creative ideas. Ideas should possess clarity and power, and have substantial impact for the field of psychology. These ideas help us understand one another and the world around us, and provide insights into the human mind.	<i>1 year 2 months</i> ago	<ul style="list-style-type: none">• Health and Life Sciences• Social Sciences

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
