Institute Awards One Health collaborations across disciplines, faculties and campuses are important steps to resolving and understanding complex problems that exist at the interface of human, animal, and environmental health. The One Health Institute offers several studentship opportunities. Faculty...	ago	<ul style="list-style-type: none">• Health and Life Sciences• Humanities• Information and Communications Technology• Physical Sciences and Engineering• Social Sciences		
Agricultural Methane Reduction Challenge - Agriculture and Agri-Food Canada 2024 Addressing methane emissions from cattle is complex. About 86% of methane emissions in agriculture are released through a biological process called enteric fermentation that takes place in the gut of cattle and other ruminant animals. Therefore,	<i>1 year 2 months</i> ago	<ul style="list-style-type: none">• Health and Life Sciences• Information and Communications Technology• Physical Sciences and Engineering

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to

Honours and Awards

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
