[IFA Norman Borlaug Award 2022](#) 2 years 8 months ago

Since 1993, IFA has granted the IFA Norman Borlaug Award to a person whose research or extension work has led to significant advances in crop nutrition. In 2021, IFA decided to expand its awards in recognition that it is important to look at plant nutrition in a new way — a new paradigm that...

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to

Honours and Awards

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
