BioInnovation & Science Prize for Innovation 2022 Behind every life-changing solution is an entrepreneurial scientist. A creative mind who proved an idea in the lab and dared to carry it out in the world. To encourage more scientists to translate their research, BioInnovation Institute (BII) & Science present a new annual	3 years 3 months ago	<ul style="list-style-type: none">• Health and Life Sciences• Information and Communications Technology• Physical Sciences and Engineering• Social Sciences

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to

Honours and Awards

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
