Ontario Centres of Excellence (OCE) Program Information Session Various programs are available through OCE that provide additional funds to leverage cash and in-kind contributions from industry. In some cases, these programs require only a 1:1 (cash + in-kind) matching from the industry partner to establish the OCE contribution, and in some cases matching...	9 years 8 months ago	<ul style="list-style-type: none">• Health and Life Sciences• Humanities• Information and Communication s Technology• Physical Sciences and Engineering• Social Sciences

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and

Workshops and Events

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
