Funding Opportunities and  
Sponsor News

[Proposals - 2025](#) Ontario Pork  
has announced a call for  
proposals for research projects  
that focus on the Ontario swine  
industry and meet the  
overarching research  
objectives of:

- Testing potential  
improvements to swine  
industry practices
- Assessing greenhouse  
gas emissions from  
swine barns

## What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
