[An introduction to Intellectual Property for Graduate Students](#)

This "Lunch & Learn Workshop" is specifically for graduate students to help them understand intellectual property and how it may be used to expand the impact of their current and future research.

Learn how to bring your creations to life. Learn why intellectual property...

[Announcing From Intention to Impact: CIHR Anti-Ableism Action Plan](#)

3 months 1 day ago

Funding Opportunities and Sponsor News

This plan adds to CIHR's commitments in the [CIHR Accessibility Plan 2023-2026](#) by going beyond accessibility to address ableism at CIHR.

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
