Funding Opportunities and  
Sponsor News

The Foundation Fighting  
Blindness Canada (FFB)  
Career Transition Award (CTA)  
has been created to strengthen  
the future of vision research in  
Canada. Designed to facilitate  
the transition from postdoctoral  
scholar to independent  
researcher, the CTA aims to  
enable exceptional young  
scholars to...

## What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
