Agricultural College (OAC).

The...

[Alliance Research Data
Management \(RDM\) Jumpstart
Workshop](#)

2 weeks 4 days ago

Workshops and Events

This week-long workshop will
introduce attendees to best
practices in Research Data
Management (RDM) using
common tools to support
research transparency and
reproducibility. Robust
implementation of RDM
principles enables researchers
to address bias and
reproducibility, effectively
share...

[Questions about
administering your research?
Ask an Expert!](#)

postdocs, graduate students) to drop-in, ask questions, and learn about...		
Mitacs Accelerate Allocation for Guelph 2025/26 Due to ongoing limitations in the provincial and federal funding landscape, institutions based in Ontario and Alberta continue to be impacted by Mitacs funding constraints. In Ontario, there are continued funding restrictions for 2025-26 for the Accelerate program, which includes the joint...	3 weeks 2 days ago	Funding Opportunities and Sponsor News
Joint NSERC Alliance - Mitacs Accelerate Streamlined Funding Opportunity NSERC and Mitacs are pleased to build on the success of their existing partnership with a new joint initiative that will support the R&D efforts of Canadian university researchers and their partners, while supporting highly qualified personnel including students and/or postdoctoral...	3 weeks 2 days ago	Funding Opportunities and Sponsor News
Mitacs Accelerate Program Mitacs Accelerate allows students to work closely with a partner organization and faculty supervisor, using the latest tools and techniques available to them in both academic and industrial settings. Projects are a cost- shared model with Mitacs through the support of federal and provincial...	3 weeks 2 days ago	Funding Opportunities and Sponsor News

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers

receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
