Program

Sony **Faculty Innovation Award** and **Focused Research Award**.

Description

As part of one of the world's most innovative and recognizable brands, we are committed to support university research and innovation in North America, while also fostering partnerships with university faculty and researchers. This Research Award Program provides funding for cutting-edge academic research and helps build a collaborative relationship between faculty and Sony researchers. With awards up to \$150,000 per year for each accepted proposal, both the **Faculty Innovation Award** and **Focused Research Award** create new opportunities for university faculties to engage in pioneering research that could drive new technologies, industries and the future.

Focused Research Award

Eligibility

2018 Sony Research Award Program

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

Sony will accept applications from Principal Investigators (PIs) who are full-time professors (adjunct professors are not eligible) or researchers and are eligible to supervise Ph.D. students at a university/educational institution in the USA or Canada. Full professors, associate professors, and assistant professors are eligible to apply.

Maximum Project Value

The Focused Research Award is limited to a maximum of \$150K per proposal. The Faculty Innovation Award is limited to a maximum of \$100K per proposal. This funding is a sponsored research grant that is to be used to conduct the research described in the proposal, and includes any overhead related to this research and any other fees or charges needed to carry out the research.??

Indirect Costs

40%

Project Duration

Please submit proposals for a one year period only. No multi-year proposals will be accepted. An extension of the research may be possible depending upon the results of the research collaboration in year one, but it will require a separate discussion for another award the following year.

Special Notes

Minimum Deliverables

Three (3) quarterly reports and a final research summary report are required at a minimum.

Visiting Researcher Support

Sony may request the PI to support a Sony visiting researcher(s) at Sony's option and expense.

Confidentiality

Proposal authors or universities/institutions must ensure that no confidential or proprietary information is included in submitted proposals. Sony will treat all information submitted in proposals as non-confidential and non-proprietary.

Intellectual Property (IP) Rights

IP rights are negotiable at the award stage and will be specified in the sponsored research agreement, but at a minimum, Sony requires the right to utilize the results of the research that it sponsors.
