This year's KTT (Knowledge Translation & Transfer) Symposium endeavours to bring together speakers from diverse geographic and disciplinary perspectives to discuss how we can deliver meaningful and responsive knowledge mobilization for Ontario's agri-food and rural sector.

Join us in-person or online to:

- hear from researchers who are designing and delivering novel KTT approaches to engage communities across Ontario and Canada.
- learn about international perspectives on farmer-engaged KTT strategies and how they can be applied in Ontario.
- engage with industry and government partners to learn about different institutional approaches to KTT in the Ontario agri-food sector.
- network with colleagues from across government, academia and industry who are working to connect producers with agri-food research.
