

Agricultural Adaptation Council (AAC) Targeted Deoxynivalenol (DON) Initiative

Updated Information
Updated deadlines:

- Internal deadline changed from January 2, 2019 to February 15, 2019
- External deadline changed from January 10, 2019 to February 28, 2019

Sponsor

Funding for this initiative is provided through the Canadian Agricultural Partnership (the Partnership) funding assistance for Ontario's organizations and collaborations.

This is a federal-provincial-territorial initiative, delivered by the AAC on behalf of the Province of Ontario and Agriculture and Agri-Food Canada.

Program

CAP Deoxynivalenol (DON) Call for Proposals

For More Information

Program guidelines and access to registration and application forms is available at the following links:

- [Application for the Targeted Intake](#) [2]
- [Budget for the Targeted Intake](#) [3]
- [CAP Program Guide](#) [4]

Description

The Agricultural Adaptation Council (AAC) is opening a new targeted Intake: Deoxynivalenol (DON) Call for Proposals. The purpose of this new Intake is to help address the challenges faced by the Ontario agriculture and agri-food industry a result of the outbreak of the DON toxin in corn. It is hoped that the resultant solutions will ensure the sustainability and prosperity of Ontario's grain sector.

Eligibility

To be considered eligible, projects must:

- be directly related to projects that will help the corn sector to address challenges caused by DON
- projects are preferred under the following two categories:
 - [Plant Health - Applied Research, Pilot Projects and Demonstration](#) [5]
 - [Plant Health - Skills Development, Training and Education](#) [6]

Organizations and collaborations representing or supporting the corn sector value chain to help address challenges caused by DON in any project categories are encouraged to apply.

This includes all organizations and collaborations along the value chain such as:

- elevators
- feed mills
- ethanol processors
- livestock sector

If you wish to apply under the other 17 CAP project categories, please contact the AAC to discuss your project idea.

Funding Availability

This program will be co-funded as follows:

- up to 50% cost-share funding of total eligible costs to a maximum \$500,000 per project*
- at least 50% applicant identified co-funding

*Requests for funding above 50% and up to 75% must clearly demonstrate how the project addresses the Innovation Rating Criteria and Project Category Priorities

Maximum Project Value

The maximum project value is \$1 million

Indirect Costs

25%

Project Duration

Agricultural Adaptation Council (AAC) Targeted Deoxynivalenol (DON) Initiative

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

Projects are to finish by December 1, 2020 with final project reporting due no later than January 31, 2021.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Friday, February 15, 2019 - 4:30pm	Please submit your full application, along with an OR-5 Form to research.services@uoguelph.ca [7].
External Deadline	Thursday, February 28, 2019 - 4:30pm	Application Deadline
