

ALS Canada-Brain Canada Trainee Program 2018

Sponsor

ALS Canada and Brain Canada

Description

The vision of ALS Canada is to achieve “a future without ALS”, and the vision of Brain Canada is “To understand the brain, in health and illness, to improve lives and achieve societal impact”. Both partners have a strong belief that it is crucial that promising young investigators are nurtured in the early stages of their careers, so they might strive to promote discovery and advancement. Attracting the brightest young minds to ALS research will contribute to a succession plan for the Canadian ALS research community and will nurture and support innovative ideas and compelling breakthroughs across the spectrum of brain-related disease.

Eligibility

General Eligibility

All applicants will have demonstrated contributions to research which may or may not have related directly to ALS, but proposed future research and training must be ALS-related. It is expected that all applicants will play a major role in a research project specifically related to ALS; the applicant’s role in the project must be clearly defined in the application. It is expected that such a study would lead to presentation(s) at a scientific meeting and/or publication(s).

At the time of application, trainees must be within the first 3 years (PhD students) or 2 years (Postdoctoral researchers) of their position; under the supervision of an investigator who holds an academic position at an eligible Canadian university; who are carrying out research at an eligible Canadian Institution.

Please see ['Terms of Reference' on the sponsor website](#) [1] for more detailed eligibility requirements for this grant opportunity.

Funding Availability

Grant Details

- A pool of funds in excess of \$300,000 will be available for this program (exact amount TBD)
- The distribution of doctoral, postdoctoral fellowships will be determined by relative merit of the applications

ALS Canada-Brain Canada Trainee Program 2018

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

- Each Doctoral Award would be funded at \$25,000 per year for up to three years
- Each Postdoctoral Fellowship would be funded at \$55,000 per year for up to three years

Indirect Costs

0%

Special Notes

Use of Funds

- Funds may only be used as stipend/salary support
- Funds may not be used for employee benefits paid by the host institution
- Should the award/fellowship be terminated early, any unused funds must be returned to Brain Canada

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Friday, May 18, 2018 - 4:30pm	Applicant to submit complete application along with complete OR5 form signed by supervisor to: research.services@uoguelph.ca [2]
External Deadline	Friday, May 25, 2018 - 4:00pm	Applicant to submit full application using Brain Canada's electronic grant management system [3]. For more information, please see the Brain Canada Foundation website . [1]
