

Canada Biomedical Research Fund and Biosciences Research Infrastructure Fund - Workshop

Date	Location	Notes
Friday March 31, 2023 9:00am to 12:00pm	McLaughlin Library - Rm 384 (Florence Partridge Room)	Please RSVP to ailsakay@uoguelph.ca [1].

Description

All faculty are invited to a half-day in-person workshop/brainstorming session **Friday, March 31 (9:00 to 12:00)** McLaughlin Library - Rm 384 (Florence Partridge Room) to discuss potential proposals for the Canada Biomedical Research Fund (CBRF) and Biosciences Research Infrastructure Fund (BRIF).

In alignment with [Canada's Biomanufacturing and Life Sciences Strategy](#) [2], CBRF is focused on preparing Canada for future pandemics by producing life-saving vaccines and therapeutics. The CBRF is a two-stage competition. At stage one, [five research hubs](#) [3] were selected. The University of Guelph is a partner on The Canadian Hub for Health Intelligence and Innovation in Infectious Diseases (HI3). Each hub has a specific theme (HI3's is vaccine and therapeutic development for zoonotic and respiratory viruses), and the hubs will facilitate the submission of major research grants (up to \$5 M per year for 4 Years) to the CBRF.

We're now at Stage 2 which is [an open, national call](#) [4] for partnered applied research, talent development and research infrastructure proposals. All proposals are expected to be multi-disciplinary, multi-institutional, and multi-sectoral, and must result in outcomes that strengthen Canada's biomanufacturing and life sciences sector. **Applications to Stage 2 must be endorsed by one of the hubs.** Endorsed notices of intent are due June 8, and full proposals September 7.

You may have been invited to participate in proposals. You may have ideas for a new proposal. Please bring all ideas and questions to the workshop.

Please RSVP to ailsakay@uoguelph.ca [1].
