For More Information

Please contact pbd.pda@cihr-irsc.gc.ca [1] if you have any questions.

Description

In January 2016, the Canadian Institutes of Health Research (CIHR) invited past trainees supported with CIHR funds to complete the Career Trajectory Survey to help us better understand the impact that CIHR's funding has had on trainees' professional development and subsequent career trajectories. The survey will include questions on support received, as well as current employment opportunities or prospects. Results from this survey will help inform the implementation of future CIHR training approaches. Survey results will be available in fall 2016.
