### CAP/DCMMP Brockhouse Medal 2024

# **Sponsor**

Canadian Association of Physicists

# **Program**

CAP/DCMMP Brockhouse Medal

# **Description**

The purpose of this award is to recognize and encourage outstanding experimental or theoretical contributions to condensed matter and materials physics. While the main criterion for awarding the Brockhouse medal is the excellence of the research accomplishments, preference will be given to recent important advances in condensed matter and materials physics.

The candidate's research should have been done primarily in Canada or in affiliation with a Canadian university, industry or government laboratory. The medal will be awarded by the Canadian Association of Physicists (CAP) on the recommendation of a selection committee established by the Division of Condensed Matter and Materials Physics (DCMMP). The medal will normally be awarded to one person but may be shared when several candidates have contributed significantly to the same research accomplishments.

# **Eligibility**

- The nominator must be a member of the CAP.
- The nominee must be a member in good standing of the CAP or a Council-approved Canadian professional science society (see list below) in order to be nominated.
- The nominee must have spent the major part (i.e. more than one-half) of his/her working career in Canada or must have made a major contribution to physics after returning to a permanent position in Canada.

The nominee must belong to one of the following societies to be eligible for the CAP/DCMMP Brockhouse Medal:

- Canadian Association of Physicists
- Canadian Astronomical Society
- Canadian Geophysical Union
