

CIHR: Accessing and Using Healthy Cities Data Webinar

Date	Notes
Wednesday December 15, 2021 2:00pm to 4:00pm	Visit the CIHR website to register .

Description

In collaboration with Statistics Canada, the Canada Mortgage and Housing Corporation (CMHC), and the [Canadian Urban Environmental Health Research Consortium](#) (CANUE), the CIHR [Healthy Cities Research Initiative](#) (HCRI) is pleased to announce an upcoming webinar focused on healthy cities data holdings.

This webinar will cover how to access and use data related to a number of healthy cities research areas including housing, health indicators, air quality and greenness. The intent of this webinar is to highlight and encourage the use of previously funded cohort, administrative, and survey data in order to advance the [objectives](#) of the HCRI. This webinar is being held in anticipation of future funding opportunities focused on the use of healthy cities data, including the HCRI Data Analysis Using Existing Databases and Cohorts Operating Grant.

Please note: this webinar is being offered in order to build awareness of existing databases. Unless otherwise stated, applications using these datasets will not be given preference for funding of future HCRI funding opportunities.

The content will be presented in English, however, they welcome questions in both English and French. Registration is now open and attendees must register to participate.
