CIHR: Project Grant - Commercialization Projects Specific Criteria

Sponsor

Canadian Institutes of Health Research (CIHR)

Description

CIHR has recently introduced a commercialization grant competition within the Project Grant Program.

Please note that while the application must address both research and commercialization goals, the involvement of the technology transfer office in completing the application is not a requirement. Please also note that having a licensee for the technology will not disqualify the project from eligibility.

The Commercialization Projects Specific Criteria [1] are now posted.

Please read more about the funding opportunity on CIHR¹s ResearchNet [2].

A full list of 53 CIHR panel mandates can be found here [3], with Commercialization (CMZ) being the final panel listed.

Special Notes

Application Registration, Internal Deadline and External Deadline are same a CIHR Project Grant [4].
