Description

CSA has advised that NASA has published a new resource with the support of all International Space Station (ISS) partners. The page [Open Source Science Opportunities](#) [3] displays a list of sites enabling access to data or publications derived from ISS research activities. Access to this data will maximize ISS utilization through further data analysis or new collaborations.

Special Notes

Please note that research activities carried out in the context of COVID-19 need to adhere to the University of Guelph COVID-19 research principles, policies, guidelines and processes as they may be updated from time to time and communicated on the [Office of Research web-page](#) [4].
