Description

Cystic Fibrosis Canada invites you to submit a **Notice of Intent** to apply to the Basic Science Research program.

The purpose of Cystic Fibrosis Canada's fall research competition is to support leading research into the understanding, management and treatment of, and cure for, cystic fibrosis (CF). Proposals will be scored on both scientific merit and impact for CF patients. All applications must address Cystic Fibrosis Canada's Core Principles of funding the best science that has the highest probability of making an impact for CF patients.

Grant applications submitted to the Basic Science Research Grant stream must focus on basic science research, including molecular, cellular, and animal studies aimed at better understanding the pathology of cystic fibrosis and its complications or the preclinical development of treatments for cystic fibrosis and its complications

Eligibility

Applicants must be independent researchers who hold a full-time academic or research appointment relevant to CF at a Canadian university.

Maximum Project Value

\$100,000/year. Cystic Fibrosis Canada will accept budget requests beyond \$100,000/year if there is a funding partner.

Indirect Costs

0%

Project Duration

3 years
