Program

Research Grant Program

For More Information

For full program details, please visit the Egg Farmers of Canada, [Research Grant Program](#) [1] web-page.

Description

Researchers are invited to complete and submit an on-line research application during Egg Farmers of Canada's (EFC) call for Letters of Intent (LOI). To be considered for funding, research projects must align with the EFC research priorities and have a practical application within the industry.

Egg Farmers of Canada is dedicated to supporting researchers and industry experts who conduct proactive research across a range of priorities. EFC's research priority areas include:

- Environment and sustainability
- End of flock management
- Innovative uses of eggs
- Animal care science
- Food safety
- Human nutrition and health
- Bird nutrition and health
- Public policy and economics
- [Research gaps identified by the Code of Practice](#) [2]

Eligibility

To be considered for funding, research projects must align with EFC's research priorities, have a practical application within the industry and the Principal investigator (PI) must work full-time

at a Canadian institution or organization. There are no specifications or requirements regarding the faculty or academic status of the PI. The PI, co-investigators and/or collaborators for each research project will be evaluated holistically to assess the strength of the research team and the expertise each member brings to the project.

Funding Availability

There is no minimum or maximum limit to the amount of funds a PI can request for a research project. Total amount of funds requested of EFC is taken into consideration along with other important criteria, including alignment of the project with EFC’s research priorities and their practical application to the industry and to consumers. Applicants with other funding sources will be given priority consideration.

Indirect Costs

0%

Project Duration

There is no limitation to the length or duration of a project funded through EFC’s research program. Past projects have ranged from one year to as many as four years. Regardless of length, timeliness is considered at the evaluation phase and clear milestones and deadlines must be outlined for each project.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.		
Type	Date	Notes
Internal Deadline	Thursday, February 22, 2024 - 4:00pm	Please submit a copy of the LOI, along with an OR-5 form to research.services@uoguelph.ca [3].
External Deadline	Thursday, February 29, 2024 - 11:59pm	LOI due to EFC through their website. Qualified applicants are then invited to submit a full research proposal. Please inform

Egg Farmers of Canada Research Grant Program 2024

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

Type	Date	Notes
		research.services@uoguelph.ca [3] if you are invited to submit a full proposal.

How to Apply

Researchers are invited to complete and submit a LOI online through EFC's website. Please review the [factsheet](#) [4], applicant information package and EFC's research summary on the [Research Grant Program](#) [1] web-page before applying.
