Equity, Diversity, and Inclusion (EDI) Resource Document for Researchers

Updated Information
2022 - EDI resource document updated

In response to the Tri-Agency Framework on Equity, Diversity and Inclusion (EDI) and the University's Equity, Diversity, and Inclusion Framework, the Office of Research Services has developed an EDI resource document (in Attachments section) for researchers to use as a tool in the development of their grant applications and proposals. At this time, EDI factors are only included in the formal evaluation criteria for applications to some specific programs, such as NSERC Discovery Grants and New Frontiers in Research Fund, where details are provided in the relevant program descriptions and application instructions; however, EDI is a critical component in the recruitment and development of any and all research teams and their robust research programs.
