

FAMAE and The Setec Foundation, Sustainable Construction in France and Africa - Call for Projects 2021 Edition

Sponsor

The Setec Foundation in association with the FAMAE endowment fund.

Program

Sustainable Construction in France and Africa

Description

For the second edition of its call for projects, the Setec Foundation has announced its partnership with the Fourth International Environmental Innovation Competition of the FAMAE Endowment Fund.

FAMAE is an endowment fund that supports innovation for the benefit of the environment. FAMAE funds solutions to improve daily lives while lowering expenses and reducing environmental footprint.

With a prize of 1,000,000 euros, this is one of the world's most ambitious challenges for sustainable innovation. This international competition has several components and is supported by several partners, including the Setec Foundation, each of which can choose a sub-theme for which it wishes to propose a dedicated call for projects.

Within the framework of this competition, the Setec Foundation is therefore launching a call for projects on sustainable construction in France and in a number of African countries: Ivory Coast, Cameroon, Senegal, Madagascar, Benin and Gabon.

The theme of sustainable construction is understood in the broadest sense of the term, and includes all types of infrastructure. In this sense, it is not limited to the habitat, housing, real estate and building sectors. It can involve transport structures such as bridges; network infrastructures, notably water and energy; and public service infrastructures such as schools, clinics, social centres, etc. Construction can be modular and can be mobile. It can also include renovation.

Do not hesitate to apply, if your project is:

- included in the circular economy: use of local resources, re-use of available resources,

waste management;

- economical with its use of water and other natural resources, with a very low impact on the environment;
- low-carbon and uses renewable energy;
- a source of employment and training, using locally available labour and local expertise during the construction, operation, maintenance and end-of-life phases;
- sustainable;
- replicable: the conditions of this replicability must be made explicit;
- functional with sustainable characteristics that do not limit its uses.

Important: The notion of “sustainability” applies to the entire life cycle of the work.

Eligibility

The competition is open to:

- Students, researchers, professors;
- SME's/startups;
- NGO's and associations.

Funding Availability

With a prize of 1,000,000 euros, this is one of the world's most ambitious challenges for sustainable innovation.

The minimum prize for the call for projects is 100,000 euros.

Maximum Project Value

1,000,000 euros.

Project Duration

The calendar of the call for projects is as follows:

- June 17, 2021 to October 15, 2021: Call for applications.
- October 16, 2021 to November 17, 2021: Selection and hearings of preselected projects.
- December 17, 2021: Award ceremony.

Special Notes

Please note that research activities carried out in the context of COVID-19 need to adhere to the University of Guelph COVID-19 research principles, policies, guidelines and processes as

they may be updated from time to time and communicated on the [Office of Research web-page](#) [1].

Please submit your LOI/application/proposal, along with an OR-5 Form to research.services@uoguelph.ca [2].

Additional information can be found on the [Setec Foundation's Website.](#) [3]

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Friday, October 1, 2021 - 4:30pm	Please submit your LOI/application/proposal, along with an OR-5 Form to research.services@uoguelph.ca [2].
External Deadline	Friday, October 15, 2021 - 5:00pm	Application to be submitted via the dedicated platform. [4]
External Deadline	Wednesday, November 17, 2021 - 5:00pm	Selection and hearings of preselected projects.

How to Apply

Please submit your LOI/application/proposal, along with an OR-5 Form to research.services@uoguelph.ca [2] by the noted deadline.

Applications are submitted directly on the [dedicated platform](#) [4].
