## France-Canada: The Mourou-Strickland Mobility Program 2023

#### Sponsor

Embassy of France in Canada

## For More Information

For additional information, please visit the France-Canada website [1] for

- Program guidelines
- Application forms
- Evaluation criteria

## Description

Created by the Embassy of France in Canada in 2018, the Mourou/Strickland program is a twoway mobility program; its main goal is to contribute to the creation of sustainable collaborations between Canadian and French researchers. It is intended for researchers who wish to spend 5 to 28 days with their counterpart(s), either in France or Canada, as part of a joint research project.

Research stays may include, but are not limited to: meetings/research on joint project, meetings for a first contact for future collaboration, work on co-publications, participation in French-Canadian (not international) conferences or seminars, etc.

#### 2023 call for projects

The 2023 call for project is open to all fields of research and encourages interdisciplinarity.

Please read the **2023 Guidelines** [2] carefully before sending your application.

# Eligibility

Eligibility criteria:

• French candidates: Be attached to an institute, laboratory, university or research organization based in France. Canadian candidates: be attached to a Canadian institution, university or research organization outside Quebec (Quebec already has

Published on Research Alerts (https://www.uoguelph.ca/research/alerts)

specific programs with France).

- Candidates have never received a grant under the Mourou/Strickland mobility program or the "new collaborations" program of the France Canada Research Fund.
- Candidates should not apply for the "new collaborations" program of the France Canada Research Fund in the same year.
- Plan a stay of between **5 and 28 days.** Travel must take place **between March 27 and December 31st, 2023**

\*Priority will be given to long stay and to researchers who have obtained a tenure-track or permanent position **for less than 10 years**, which corresponds approximately and not exclusively to the 35-45 age group

The title of this program refers to two physicists; however, it is open to all researchers regardless of their field of research.

## **Maximum Project Value**

- One round-trip economy-class flight Canada-France or France-Canada
- A contribution towards subsistence costs (five daily allowances)

## **Indirect Costs**

0%

# **Project Duration**

Stay of between **5 and 28 days.** Travel must take place **between March 27 and December 31st, 2023** 

## **Special Notes**

IMPORTANT: The Embassy will not cover the costs of the visa procedures for laureates, nor any fees related to COVID-19 travel requirements (quarantine, mandatory PCR or antigen tests...) The Embassy cannot be held responsible for travel hazards (bad weather, flight delays, etc.).

## Deadlines

# If College-level review is required, your College will communicate its earlier internal deadlines.

Туре	Date	Notes
Internal Deadline	Monday, January 30, 2023 -	
	11:59pm	Applicant to submit a copy of application and a copy of the
		invitation letter from the host
