

## Genomic Applications Partnership Program (GAPP) - Round 10

### Sponsor

Genome Canada

### Program

Genomic Application Partnership Program

### For More Information

More information can be found here: [GAPP Program Overview](#) [1]

The main point of contact for the GAPP program is Shobha Ramsubir, Senior Manager Business Development & Research ([sramsubir@ontariogenomics.ca](mailto:sramsubir@ontariogenomics.ca) [2]).

### Description

The Genomic Applications Partnership Program (GAPP) funds downstream research and development (R&D) projects that address real world opportunities and challenges identified by industry, government, not-for-profits and other “Receptors” of genomics knowledge and technologies.

GAPP projects are collaborations between academic researchers and Receptor organizations. They are co-funded by Receptors and other stakeholders, and have the potential to generate significant social and/or economic benefits for Canada.

The GAPP aims to:

1. Accelerate the application of Canadian genomics-derived solutions to real-world opportunities and challenges defined by industry and public sector Receptors.
2. Channel Canada’s genomics capacity into sustainable innovations that benefit Canadians.
3. Enhance the value of Canadian genomics technologies by de-risking and incentivizing follow-on investment from industry and other partners.
4. Foster mutually beneficial collaboration and knowledge exchange between Canadian academia and technology receptors.

## Eligibility

To be eligible for the GAPP, a project must:

- Develop and apply a genomics-derived tool, product or process to an opportunity or challenge defined by the Receptor(s);
- Focus on late stage R&D that will position the innovation for near-term implementation / commercialization;
- Be co-led by an academic and a Receptor organization in partnership, with active and necessary roles for both; and
- Demonstrate the potential to generate significant social and/or economic benefits for Canada.

Small-scale proof-of-concept / pilot projects through to large-scale projects will be accepted. Projects should not be in discovery phase.

## Maximum Project Value

\$300,000 to \$6 million. The structure of the funding plan is as follows: 1/3 investment from Genome Canada, 1/3 provided by the Receptor partner (cash or in-kind) and 1/3 of other co-funding (non-GC). For more information see Section 9 and Appendix 2 of the [GAPP Investment Strategy and Guidelines](#) [3].

## Indirect Costs

0% for funding requested from Genome Canada; indirect costs may apply to Receptor (i.e. industry) collaborator(s)

## Project Duration

One -three years. Shorter or longer terms will be considered only if strong rationale is provided.

### deadlines.

Type	Date	Notes
<b>External Deadline</b>	Monday, November 13, 2017 - 9:00am	<b>Draft Expression of Interest (EOI) to Ontario Genomics</b>  The draft EOI does NOT need to be submitted to the Office of Research
<b>Internal Deadline</b>	Thursday, January 4, 2018 - 8:30am	<b>Final Expression of Interest (EOI) to Office of Research</b>  Please submit a signed OR-5 form and the Final Expression of Interest to the Office of Research two weeks prior to the external deadline to Ontario Genomics. If invited to the full application stage, please submit a copy of the final application to <a href="mailto:research.services@uoguelph.ca">research.services@uoguelph.ca</a> [5] at least two weeks prior to the Ontario Genomics final full application deadline.
<b>External Deadline</b>	Thursday, January 18, 2018 - 9:00am	<b>Final Expression of Interest (EOI) to Ontario Genomics</b>

## How to Apply

There is a three-stage, gated application process for this program:

1. Expression of Interest (EOI)
2. Project Pitch
3. Supplementary Proposal

At each of the above stages, Ontario Genomics has developed a due diligence review process,

---

where a panel of industry experts and entrepreneurs provide feedback to help teams navigate the application and increase their competitiveness. These reviews are mandatory for all Ontario projects.

Applicants should anticipate the following phases in the application process:

1. Submission of draft EOI to Ontario Genomics.
2. Face-to-face business pitch to due diligence review panel ([see panel members](#) [6]).
3. Development of final EOI through active collaboration with Ontario Genomics.
4. Submission of EOI to Genome Canada.
5. Teams invited to Project Pitch stage: Perform practice pitch with Ontario Genomics before official pitch to Genome Canada.
6. Teams invited to Supplementary Proposal stage: Submit draft applications to Ontario Genomics for panel review before submission to Genome Canada.

Application Forms and Submission:

For copies of the current forms, or to submit an EOI, please contact Shobha Ramsudir at [sramsubir@OntarioGenomics.ca](mailto:sramsubir@OntarioGenomics.ca) [7]

## Information For Co-applicants

If you need to meet a deadline set by the lead institution for this opportunity, please ensure that you provide the Office of Research with at least five days in advance of the lead institution's deadline to review the application, or your proposed component of the project. Please be in touch with the Office of Research (contact information below) ahead of the deadline if it looks like it will be difficult for you to submit all the required documentation on time (i.e. budget, proposal, OR-5 Form).

For Questions, please contact

For questions on the GAPP program, please contact [Shobha Ramsudir](#) [8], Senior Manager, Business Development & Research at [sramsubir@OntarioGenomics.ca](mailto:sramsubir@OntarioGenomics.ca) [7]
