- Program guidelines
- Application forms
- Evaluation criteria

Applications are accepted and reviewed on a rolling basis.

Description

GlycoNet is seeking to fund Clinical Partnership projects that would offer clinicians and biomedical researchers opportunities to partner with Network Investigators to study glycans or glycosylation changes in disease. This partnership would increase clinician awareness of the role of glycomics in disease, and expand glycomics translational research and its application in more problems of clinical importance. Partnership outcomes could be better understanding of disease, drug development strategies, or new drug targets.

Eligibility

Based on NCE requirements, this opportunity is open only to individuals who are eligible to hold Tri-Council funds; i.e., the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council of Canada (NSERC) or the Social Sciences and Humanities Research Council of Canada (SSHRC). Furthermore, GlycoNet requires that all investigators receiving Network funding must have other peer-reviewed support. Such support need not be from the Tri-Council.

Funding Availability

\$150,000 annually

Maximum Project Value

\$50,000 per grant

Indirect Costs

0%

Project Duration

12 months

Special Notes

Please note that research activities carried out in the context of COVID-19 need to adhere to the University of Guelph COVID-19 research principles, policies, guidelines and processes as they may be updated from time to time and communicated on the [Office of Research web-page](#) [2].

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type

Notes

Internal Deadline

Applicant to submit a copy of application and complete OR5 form **1 week prior** to submitting final application to sponsor.

External Deadline

Applications are accepted and reviewed on a rolling basis. Applicants must register by email to info@glyconet.ca [3].

Provide the project title, anticipated budget request, and list of investigators involved in the project. This information is not binding and can change when the application is submitted. Upon registration, applicants will receive instructions for completing the application. Applications will be reviewed on a quarterly basis.
