

Guelph Talks Research speaker series

Description

One topic, three takes - join us as we bring apples and oranges together.

The University of Guelph is one of Canada's top comprehensive research-intensive universities and scholarly excellence is at the core of our mission. We celebrate this excellence with [University Research Awards](#) which span all of our colleges, and we want you to learn more about what our faculty awardees are doing.

Guelph Talks Research is a lecture series that brings together these faculty to give their take on a single topic, each from their own disciplinary perspective.

More details, including dates, times and who will be speaking, can be found on the [Guelph Talks Research webpage](#).
