
Japan Society for the Promotion of Science - International Prize for Biology

Sponsor

Japan Society for the Promotion of Science

Description

The International Prize for Biology was instituted in April of 1985 by the Committee on the International Prize for Biology. It aims to commemorate the sixty-year reign of Emperor Showa and his longtime devotion to biological research and also to offer tribute to His Majesty the Emperor Emeritus, who has strived over many years to advance the study taxonomy of gobioid fishes while contributing continuously to the developing of this Prize.

Each year, the International Prize for Biology is conferred upon a distinguished researcher in a field selected by the Prize Committee from among all the fields of biology.

The research field for the 2023 Prize is: **Biology of the Genome**

Eligibility

The Prize shall be awarded to an individual who, in the judgment of the members of the Committee, has made an outstanding contribution to the advancement of research in fundamental biology.

There are no restrictions on the nationality of the recipient.

Prize

The Prize is presented every year in a dedicated ceremony. The Prize consisting of a certificate, medal and purse of 10 million yen is given to the recipient. In conjunction with the ceremony, an international symposium is held in which the Prize recipient is invited to give a special lecture.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.
