
KFOC: 2019 Biomedical Research Grant and Special Research Project Grant

Sponsor

Kidney Foundation of Canada (KFOC)

Description

Biomedical Research Grants provide financial support to medical researchers to assist in defraying the operating costs of research, which may include the purchase of materials, supplies and equipment and the payment of laboratory assistants.

Special Research Project Grant: Predictive Biomarkers: Applicants are invited to submit a proposal for a special project related to predictive biomarkers. Additional information can be found in [Section 3 of the sponsor Research Grant Policies](#) [1]. This funding opportunity was made possible due to an unrestricted donation to The Kidney Foundation of Canada from Janssen Inc.

Highlights for 2019: The Biomedical Research Grants Policies 2018 Competition, supersede all previous Kidney Foundation of Canada Biomedical Research Grants Policies. Applicants should always refer to the latest version. The Kidney Foundation of Canada may, without notice, alter the programs or terms of a grant. Any major changes will be announced immediately on the [KFOC website](#) [2]. The Kidney Foundation of Canada reserves the right to interpret these guidelines and policies. Applicants should contact the National Director of Research or the Coordinator, Research Grants and Awards as required.

Eligibility

The KFOC defines a Nominated Principal Applicant as an individual who:

- will be responsible for the direction of the proposed activities; and
- will assume the administrative and financial responsibility for the grant or award; and
- will receive all related correspondence from The KFOC.
- Is an independent researcher (Post-doctoral fellows not eligible)
- Canadian citizen or permanent resident (e.g. a person who has been granted admission to Canada as an immigrant)
