

LRIC Horizon Webinar Series: Livestock and Water Use

Date

Monday July 26, 2021 12:00pm to 12:40pm

Notes

[Register for the Webinar](#)

Description

Livestock production in Ontario is a large consumer of water. The food system is being called on to produce food more sustainably, including the use of water. Join Livestock Research Innovation Corporation (LRIC) and Dr. Andrew VanderZaag, Research Scientist, Agriculture and Agri-Food Canada who will discuss Livestock and Water Use with time for your questions.
