Description

Mitacs has transformed their Mitacs Step professional skills training program - which delivered over 1400 training and skills development workshops to Canadian students over the past 10 years - into a more comprehensive offering called Mitacs Training.   With funding from the Government of Canada through Budget 2017, Mitacs will deliver 1000 workshops through Mitacs Training over five years to complement their work-integrated learning programs, which are scaling to support 10,000 research internships annually.   Features of the workshops include:

- Workshops will be delivered to better align with the needs of interns participating in Mitacs innovation programs and prospective interns.
- To reduce administrative burden on our university partners, Mitacs will manage the scheduling, coordination, and registration for in-person training to increase access for potential and current interns.
- Online workshops are available nationally.

How to Apply

Mitacs Training workshops are offered throughout the year. If you are a graduate student or postdoctoral fellow or a past graduate student that has graduated in the past two years, now is the time to sign up for the workshops at no cost to you.

To register for a workshop, simply:

- Select the workshop. You can find a workshop by searching the:
    - [The Workshop Listings](#) [2]
    - [The Workshop Catalogue](#) [3] (organized by location)
    - [The Workshop Calendar](#) [4](organized by date)
- [Log in](#) [5] or [create a new account](#) [6]

- Fill out the registration form and submit.
- Select another workshop when your first registration is complete, if you are signing up for multiple workshops.
- Please note: Workshops are in high demand and there is a $50 no-show fee. Due to this, a credit card is required when registering.

For Questions, please contactPlease contact Cam Stockdale, Director Program Training if you have any questions: cstockdale@mitacs.ca
