

New U of G Strategic Research Plan for 2017-2022

The University of Guelph's new Strategic Research Plan (2017 - 2022) has been approved and is now posted on the Office of Research website. The plan promotes and advances research strengths on which the University has built its reputation for quality and innovation. It reflects the university's strategy framework themes: catalyzing discovery and change, connecting communities, inspiring learning and inquiry, stewarding valued resources and nurturing a distinctive university culture.

Five research principles, six overarching themes and seven unique signature areas distinguish the University of Guelph's Strategic Research Plan.

Principles

- Promoting research excellence
- Connecting our research with the world
- Catalyzing and stewarding research partnerships
- Enhancing research culture
- Building a supportive research environment

Themes

- Fundamental science and its application
- Cultural inquiry and creative practice
- Social and economic welfare
- Animal and human health and wellbeing
- Agriculture, food, and the bio-economy
- The environment

Signature areas

- Food
- Agriculture and the bio-economy
- Veterinary medicine
- One health
- Environmental stewardship and biodiversity
- Community-engaged scholarship
- Creative and critical practice
- Data science and informatics
