

## NFRF Transformation Competition 2026 - NOI and LOI

### Sponsor

New Frontiers in Research Fund (NFRF)

### Program

Transformation

### For More Information

Consult the [2026 Transformation Competition](#) [1] overview.

### Description

The objective of the Transformation stream is to support large-scale, Canadian-led interdisciplinary research projects that address a major challenge with the potential to realize real and lasting change. The challenge may be fundamental, leading to a scientific breakthrough, or applied, with a social, economic, environmental or health impact. Projects are expected to be world-leading, drawing on global research expertise, when relevant.

Transformation stream grants will support projects that:

1. tackle a well-defined problem or challenge;
2. propose a novel world-leading approach that is different from the current state-of-the-art approaches to the issue;
3. are interdisciplinary, bringing different perspectives to the defined problem; and,
4. have the potential to be transformative, defined as the potential to create a significant and real change or impact — a noticeable leap or tangible breakthrough rather than an incremental advance.

### Eligibility

To reflect the expertise required to deliver on the ambitious and interdisciplinary nature of the project, proposals must be submitted by teams. Teams must include a nominated principal investigator (NPI) and may include co-principal investigators, co-applicants and/or collaborators. Individuals who are not academic researchers are eligible for all roles except NPI.

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

---

The NPI must be considered an independent researcher at their primary affiliation — which is defined as the primary organization where the NPI is employed or appointed, or where they conduct research.

## Funding Availability

\$144,000,000 over six years

## Maximum Project Value

Transformation grants are valued at between \$2,000,000 and \$4,000,000 per year (including indirect costs) for up to six years. The minimum budget for direct costs of research is \$1,600,000 per year and the maximum budget is \$3,200,000 per year.

Applicants must request a budget (value and duration) commensurate with the objectives of the project.

## Indirect Costs

25%

## Project Duration

Up to six years

## Deadlines

**If College-level review is required, your College will communicate its earlier internal deadlines.**

Type	Date	Notes
<b>External Deadline</b>	Tuesday, March 11, 2025 - 1:00pm	Program Webinar for EOI stage available on <a href="#">competition website</a> [2].
<b>Internal Deadline</b>	Tuesday, March 18, 2025 - 9:00am	Expressions of Interest: Please email <a href="mailto:ailsakay@uoguelph.ca">ailsakay@uoguelph.ca</a> [3] with the following information:

- PI name
