

Northern Science Award 2023

Sponsor

Polar Knowledge Canada

Description

The Northern Science Award is presented annually to an individual or a group who has made a significant contribution to meritorious knowledge and understanding of the Canadian North. In the spirit of the last International Polar Year (2007-2008) the Northern Science Award recognizes the transformation of knowledge into action.

Eligibility

Until 1997, the award was presented to an individual who made distinguished contributions to northern Canada through scientific work. In recognition of the contribution of indigenous knowledge to the scientific understanding of the North, the eligibility requirements for the award were then expanded to include indigenous groups who possess and share indigenous knowledge.

For the purpose of this award, "northern" is defined as that part of Canada that lies north of the southern limit of discontinuous permafrost and "science" refers to all fields of inquiry, including those based upon indigenous knowledge, that advance our understanding of the natural world and society.

Anyone can make a nomination. The term "candidate" includes either an individual or a group.

The Northern Science Award selection committee will assess each candidate on the following combination of achievements:

- wide recognition of the quality and significance of the knowledge created;
- significant contribution to advancement of northern knowledge;
- relevance to northern societies or communities, with an emphasis on transforming knowledge into action; and
- training or participation of Northerners in the work.

Prize

The Northern Science Award comprises the Centenary Medal, which commemorates the

hundredth anniversary of the first International Polar Year (1882-1883), and a cash prize of \$10,000.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
External Deadline	Tuesday, January 31, 2023 - 11:59pm	Please submit the nomination directly to grants-contributions@polar.gc.ca [1] by the external deadline. Please also submit a copy of the full nomination and an OR-5 to research.services@uoguelph.ca [2].

How to Apply

The nominator should provide to the Northern Science Award selection committee:

- A letter of nomination clearly demonstrating the merit of the accomplishment of the candidate (in 500 words or less);
- Supporting documentation includes:
 - the candidate's curriculum vitae
 - evidence of the candidate's scientific achievements in northern science (research activities, publications, other awards and distinctions, professional and public services, sharing of indigenous knowledge)
 - evidence of the application of the new knowledge and its impacts
- Three letters of support highlighting the candidate's achievement(s).

Nominations must be submitted **electronically** (in **.pdf** format) to grants-contributions@polar.gc.ca [1] by the external deadline. Please also submit a copy of the full nomination and an OR-5 to research.services@uoguelph.ca [2] by the external deadline.
