Description

NSERC engagement visits have been a successful tool for the Agency and the community to share information and build linkages. Over the last six years, NSERC officials have made 69 visits to 45 universities. Moving forward, NSERC plans to continue connecting with the community through these engagement webinars. These webinars also offer a platform for the community to ask questions and seek direct information from some of NSERC's staff. The webinars are planned for two hours and feature presentations by NSERC staff, interspersed with opportunities for questions from attendees.
