Description

NSERC's [Alliance grants](#) team has organized an information session on **Alliance Option 2**. Researchers will learn about how to prepare successful Option 2 projects. The session will be offered virtually at **three different dates and times in May**.

The sessions will focus on helping potential applicants better understand the goals and characteristics of Alliance Option 2, the type of partnership to achieve optimal societal impact, the evaluation process, as well as examples of funded projects.

You are welcome to **submit and/or upvote any Alliance-related questions that you would like addressed during the sessions in advance using NSERC's [Slido poll](#) (open until May 16th, 2023)**. Submitting your question in advance will ensure that NSERC gets to your question during the presentation and that they are able to prepare a helpful answer for you.

Please bear in mind that any project-, partner-, student, or team-specific questions are better addressed privately; you can send these anytime by contacting NSERC at alliance@nserc-crsng.gc.ca.
