

NSERC Webinar - Canada-France Call for Proposals on Artificial Intelligence

Date	Location	Notes
Tuesday February 11, 2025 1:00pm to 2:30pm	French session	Register here
Wednesday February 12, 2025 11:00am to 12:30pm	English session	Register here

Description

NSERC's Alliance Communications Team will be offering presentations on the Canada-France call for proposals on artificial intelligence for university faculty members and researchers. This is a joint initiative between the [French National Research Agency \(ANR\)](#), and the three federal research funding agencies – the [Natural Sciences and Engineering Research Council of Canada \(NSERC\)](#), the [Social Sciences and Humanities Research Council of Canada \(SSHRC\)](#), and the [Canadian Institutes of Health Research \(CIHR\)](#), in collaboration with [IVADO](#).

The presentations will focus on the objectives of the call and on the requirements for the Canadian teams to apply for funds. NSERC will be responsible for receiving and assessing the eligibility of the Canadian applications on behalf of the three Councils. Where applicable, [IVADO](#) will evaluate the requests for supplements that are included in the proposals. Representatives from NSERC, SSHRC, CIHR and IVADO will be present at the webinar to answer questions.

Please note that teams from France were required to register their intent to apply in October 2024. If these registrations identified Canadian researchers with whom they intended to collaborate, those researchers will be invited to these webinars automatically. However, the webinars are also being shared more widely since the Canadian membership may change between the registration and the submission of the full proposal.

The deadline to submit proposals is the end of March 2025; the exact date will be confirmed later.

Please refer to the [program literature](#) for more information.
