

OCE New Program Launches

Sponsor

Ontario Centres of Excellence

Description

ENCQOR (Evolution of Networked Services through a Corridor in Quebec and Ontario for Research and Innovation): a transformational Canada-Quebec-Ontario partnership, which brings together industry, small and medium sized enterprises (SMEs), the public sector, centres for innovation, and universities focused on research and innovation in the field of 5G disruptive technologies. More details on program streams, particularly the Technology Development Project and Talent streams, will be available shortly on the [ENCQOR](#). [1]

Next Generation Network Program: supports the development and implementation of ultra-high-speed digital infrastructure to interconnect digital innovation hubs within Ontario, support small and medium sized enterprises (SMEs) proof of concept projects, develop talent, support export development activities and access technical and business support personnel and services. More details on program streams, particularly the Talent stream, will be available shortly on the [Next Generation Network Program](#). [2]

For Questions, please contact Kristin Gibson, Awards and Agreements Officer, Office of Research, Research Support Services, 519-824-4120 x56257 E: kristin5@uoguelph.ca [3]
