

Ontario Agri-Food Innovation Alliance Data Management Plan Workshops

Date	Location
Tuesday April 9, 2019 1:00pm to 2:00pm	Library Scholars Studio (S2)
Thursday April 18, 2019 11:00am to 12:00pm	
Tuesday April 23, 2019 1:00pm to 2:00pm	

Description

As part of the Ontario Agri-Food Innovation Alliance's commitment to fostering sound data management practices, we are working with the Library to deliver workshops on how to complete a Data Management Plan (DMP).

We welcome principal investigators, graduate students, project team members and others interested in data management to attend a workshop to learn more about DMPs and how best to complete a DMP. These sessions are mainly geared towards researchers who have received Alliance funding, however all are welcome to attend.

Please visit the [Alliance DMP page](#) for a list of current workshops as new dates are continually added, and to register for a date that works for you.
