| Thursday December 12, 2024 12:00pm to 12:45pm | Online (Microsoft Teams) | Join Meeting |

Description

The College of Social and Applied Human Science is offering an exciting platform where researchers across the college will have the opportunity to present on a research topic of their choosing followed by an engaging Q&A session with the audience. These research sessions are intended to highlight some of the exciting research done in CSAHS.

Dr. Tu?çe Ellialt?-Köse is Assistant Professor in the Department of Sociology and Anthropology and a faculty member in the Criminal Justice and Public Policy program. Dr. Ellialt?-Köse's work explores the intersections of law, medicine, and science in state and institutional responses to sexual violence. Her main research interests focus on relationships between gender, law, medicine, and social inequality; understandings and practices of people interacting within domains that law governs; and the complex ways in which the law and the media may help relieve or reinforce power, inequality, and discrimination.

If you have any questions, please contact Nana Baidoo (nbaidoo@uoguelph.ca) or Julie Duffield (jduffiel@uoguelph.ca).
