

Robarts Research Institute: J. Allyn Taylor International Prize in Medicine - 2022

Sponsor

Robarts Research Institute?

Description

The Taylor Prize is awarded annually by Robarts Research Institute to an individual or individuals who have made significant contributions to a field of basic or clinical research in one of the Institute's principal areas of research.

Each year a topic is selected and the scientific community is invited to nominate individual scientists or groups of scientists whose initiatives fall within that particular field of research.

This year's theme is *Research and Innovation in Molecular Imaging of the Brain*. Of particular interest is the impact of the work on understanding neurological disorders and disease.

Prize

The Prize, which consists of a cash reward of \$40,000, an engraved medal, and a framed certificate, is awarded to one or more individuals who have made significant contributions in basic or clinical research.

Special Notes

Please note that research activities carried out in the context of COVID-19 need to adhere to the University of Guelph COVID-19 research principles, policies, guidelines and processes as they may be updated from time to time and communicated on the [Office of Research web-page](#) [1].
