

## **Robarts Research Institute: J. Allyn Taylor International Prize in Medicine 2025**

### **Sponsor**

Robarts Research Institute?

### **Description**

The Taylor Prize is awarded annually by Robarts Research Institute to an individual or individuals who have made significant contributions to a field of basic or clinical research in one of the Institute's principal areas of research.

Each year a topic is selected and the scientific community is invited to nominate individual scientists or groups of scientists whose initiatives fall within that particular field of research.

The 2025 theme is **Cell-based immunotherapy**. This year, we invite nominations for recognized research leaders in aging-related medical science and research.

### **Eligibility**

The Taylor Prize acknowledges distinguished scientists for their transformative, career-defining work in basic sciences, translational research and innovations in medicine.

The 2025 Taylor Prize highlights the transformative potential of cell-based immunotherapy, and recognizes the groundbreaking contributions of those who are driving innovation in this field. Nominations are accepted for leading scientists and researchers whose work is advancing our understanding of these immune-based treatments and reshaping the possibilities of human health.

Further information regarding this year's theme can be found on the [Robart's Research Institute website](#).

### **Prize**

The Prize consists of a cash award of \$50,000.

### **Deadlines**

**If College-level review is required, your College will communicate its earlier internal deadlines.**
