Description

Grants awarded through this RFA are intended to provide early support for exploratory ideas, particularly those with novel hypotheses for autism. Appropriate projects for this mechanism include those considered higher risk with less assurance of ultimate impact, but with the potential for transformative results.

The goal of the Pilot Award is to provide early support for exploratory ideas, particularly those with novel hypotheses. Appropriate projects for this mechanism include those considered higher risk but with the potential for transformative results. To get a better understanding of SFARI's different RFAs and whether the Pilot Award may be the best mechanism to support your project, please read our blog post "[SFARI RFA reboot: Why, what and how?](#) [2]"
