Skills for Research Impact: Data Visualization

Date	Location
Tuesday March 2, 2021 1:00pm to 2:30pm	Virtual

Description

Skills for Research Impact is a workshop series for University of Guelph faculty, research staff and graduate students interested in enhancing the impact of their research.

On March 2nd from 1-2:30 pm, join us for an introduction to data visualization for non-technical users.

After attending this workshop, participants will be able to:

- Understand what data visualization accomplishes and why it matters
- Set yourself for success and know what your team needs to be successful in data visualization
- Define your data visualization style and approach
- Get familiarized with key best practices
- Get introduced to how to get it done without technical skills
