Program

Partnership Grants for National Housing Strategy Longitudinal Outcomes Research

Description

The Canadian Mortgage and Housing Corporation (CMHC), in partnership with SSHRC, has launched the new Partnership Grants for National Housing Strategy Longitudinal Outcomes Research to examine key issues affecting outcomes of investments in affordable housing.

CMHC aims to support multi-disciplinary research teams of social sciences and humanities researchers, life scientists, engineers, and environmental scientists to work collaboratively. They will examine the long-term health, socio-economic, and climate change outcomes of investments in affordable housing, and the links between housing, health, socio-economic, and environmental factors at the household and community levels.

Eligibility

The research may guide evidence-based decision making related to housing provision and the built environment.

This grant is for multi-disciplinary research teams to examine areas holistically, using gender-based analysis plus (GBA+) analytical lens. These teams would contain academic community members belonging to social sciences, life and natural sciences and engineering.

The academic community may work in collaboration with CMHC researchers to deliver the work, share knowledge, and interrogate the same data sources.

There are 2 categories of partnerships that can apply:

1. **Existing partnerships** to foster new research and/or research-related partnership activities that are distinct from the partnership's previous/ongoing partnership activities.
2. **New partnerships** to foster new research and/or research-related partnership activities that are undertaken by partnerships in their initial stages.

Proposals should involve multiple disciplines, thematic areas, approaches or subject areas eligible for this funding opportunity.

Funding Availability

There is a total of \$4.8 million available in this grant.

Maximum Project Value

\$410,000 for the first year and \$1.1 million for the following years for up to 4 years.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Tuesday, November 8, 2022 - 4:30pm	PI to submit a signed OR-5 form along with a copy of the full application to: research.services@uoguelph.ca [1] Please select 'submit' on the Convergence Portal [2] on or before the internal deadline (two weeks prior to external deadline).
External Deadline	Tuesday, November 22, 2022 - 8:00pm	Application will be submitted to SSHRC electronically by the

Type	Date	Notes
		Office of Research Services through the Convergence Portal.

Information For Co-applicants

If you need to meet a deadline set by the lead institution for this opportunity, please ensure that you provide the Office of Research with at least five days in advance of the lead institution's deadline to review the application, or your proposed component of the project. Please be in touch with the Office of Research (contact information below) ahead of the deadline if it looks like it will be difficult for you to submit all the required documentation on time (i.e. budget, proposal, OR-5 Form).
