Impact Awards

Description

SSHRC Impact Awards are designed to build on and sustain Canada's research-based knowledge culture in the social sciences and humanities. The awards recognize outstanding researchers and celebrate their achievements in research, research training, knowledge mobilization and outreach activities funded partially or completely by SSHRC.

Award funds are to be used for activities that promote and extend the work being honoured. In recognition of the crucial role that postsecondary institutions play as researchers' knowledge mobilization partners, at least 10 per cent of each award must be used to promote the recipient's research achievements. Individual recipients and their institutions may choose to devote additional funds, including a higher percentage of the award funds, to these activities.

Each institution may submit only one nomination for each award in a given year.

Gold Medal (\$100,000) The Gold Medal is SSHRC's highest research honour. It is awarded to an individual whose sustained leadership, dedication and originality of thought have inspired students and colleagues alike. The recipient's achievements in research must have significantly advanced understanding in their respective fields of research in the social sciences and humanities. The exceptional quality and impact of the recipient's research, and their ongoing efforts to share the results, of this work must have greatly enriched Canadian society, and contributed to social, cultural, economic and intellectual life in Canada and/or internationally.

Insight Award (\$50,000) The Insight Award recognizes outstanding achievement arising from a research project funded partially or completely by SSHRC. It is given to an individual or a team of six people maximum (including the nominee) whose project has significantly contributed to knowledge and understanding about people, societies and the world. The project's research outcomes must have led to demonstrable impact within the nominee's fields of research and/or beyond the social sciences and humanities research community. In the case of a team project, the nominee must be the project's principal investigator. If successful, this person will receive

the award on behalf of the team.

Talent Award (\$50,000) The Talent Award is given to an individual who maintains academic excellence, has a talent for research and knowledge mobilization and has demonstrated clear potential to be a future leader within and/or outside the academic sector.

Connection Award (\$50,000) The Connection Award recognizes an outstanding SSHRC funded initiative to facilitate the flow and exchange of research knowledge within and/or beyond the social sciences and humanities research community. It is given to an individual or team whose project has engaged the campus and/or wider community, and has generated intellectual, cultural, social and/or economic impacts. In the case of a team project, the nominee must be the applicant / project director for the initiative. If successful, this person will receive the award on behalf of the team.

Partnership Award (\$50,000) The Partnership Award recognizes a SSHRC-funded [formal partnership](#) [1] for its outstanding achievement in advancing research,, research training or knowledge mobilization, or developing a new partnership approach to research and/or related activities. It is awarded to a formal partnership that, through mutual co-operation and shared intellectual leadership and resources, has demonstrated impact and influence within and/or beyond the social sciences and humanities research community. For the Partnership Award, the nominee must be the project director. If successful, this person will receive the award on behalf of the partnership.

More information on the above mentioned awards can be found on the [SSHRC Impact Awards website](#) [2].

Program details and timeline are not yet confirmed. This information will be updated when the program launches.
